

## SCHOOL OF FISHERIES AND AQUACULTURE SCIENCES

### PROGRAMME

G2051 DIPLOMA IN FISHERIES

### INTRODUCTION

This program offers semi-professional courses in technical science of fisheries and fishing to post-SPM students. Fisheries covering all aspects related to the fishing industry, including fields such as oceanography, air pollution, fishing technology, techniques, fishing, sailing, shipping, maintenance, repairs, breeding, fish nutrition and fish disease. Since fish is an alternative source of supply to countries other than meat protein, it was natural to study this unexplored sector in order to meet this goal while improving the livelihood of fishermen.
